Hello Duncan,

I passed on your message.

Thanks to you and your group for brining materials to spur the discussions.

We will regroup on our end and get back to you. If any ideas or questions arise on your side do not hesitate to contact me.

Mark

Mark – it was good to meet you and the other members of the EPA team yesterday. The general consensus on the train home was that it was a productive meeting. Please thank everyone involved at EPA for their time on my behalf.

Duncan

Greetings,

Here is the current version of the agenda. It has a call in number in case anyone back in WI wishes to join. I will send you any last minute changes.

The presentation system in the conference room is working. However, the screen is a bit small. I can get half of the crosswalk on the screen at a time. Anyone who has hard copies will probably want to bring them.

Tomorrow, I will keep an eye out for your party on the 16th floor to let you in.

If you have any questions or needs, please let me know.

See you tomorrow,
Mark

Mark – I think the agenda looks fine. I have prepared a brief review of the current statutory authorities for the discussion of the list in your notes section. We may not get onto ch 4 authorities and if we do it seems as if we will be diving into the crosswalk matrices.

We are committed to service excellence.

Hello Duncan,

Here is a starting point on the agenda for the Wednesday meeting. I made it brief to encourage development. Although, I have some notes at the end to consider.

Thank you,
Mark
